Evropski skladi (strukturni, za regionalni razvoj, ...)

The screenshot shows the homepage of the website for EU Structural Funds and Cohesion Fund in Slovenia. The main banner features the text "Kako črpamo sredstva evropskih strukturnih skladov?" (How do we draw funds from European structural funds?). Below the banner, there are three main sections: "Kohezijski sklad" (European Regional Development Fund), "Evropski socialni sklad" (European Social Fund), and "Evropski sklad za regionalni razvoj" (European Fund for Regional Development). Each section has a brief description and a link to learn more. To the right, there is a sidebar with links for "aktualni razpisi in seznamni upravičencev" (current calls for proposals and lists of authorized entities), a collection of logos for the funds, and links to "Predpisi, navodila in operativni programi" (Regulations, guidelines, and operational programs). The footer contains a link to the homepage and a slide navigation bar.

FP7 Socio-economic Sciences and Humanities (SSH)

a subgroup of Framework Programme Seven (FP7)

Funding 'Socio-economic sciences and the humanities' (SSH) will contribute to an in-depth, shared understanding of the complex and interrelated socio economic challenges confronting Europe.

Why is it important?

Research in this theme will help us study and provide answers to questions related to:

growth, employment and competitiveness;
social cohesion, social, cultural and educational challenges in an enlarged EU;
sustainability, environmental challenges, demographic change, migration and integration, quality of life and global interdependence.

What will be funded?

Emphasis will be given to the following areas:

Growth, employment and competitiveness in a knowledge society
Combining economic, social and environmental objectives in a European perspective
Major trends in society and their implications
Europe in the world (covering a.o. migration, poverty, crime and conflict)
The citizen in the European Union
Socio-economic and scientific indicators
Foresight activities, such as the future implications of global knowledge, migration and ageing.

[Follow Graham](#)

A company in the North East of England is planning to exploit their expertise in the field of colour psychology, in relation to the treatment of depression and mental illness.

Partners are sought in Europe for collaboration in clinical trials of medical devices and related software in the field of colour psychology with the aim of exploring the efficacy of the treatment. Other forms of collaboration are also sought - the potential for business partnering, joint ventures, technology transfer, licensing, partnering in further R&D projects.
